

Authorised tyres

If you paid for the tyres currently on your car, please ensure they are made by brands authorised by Ayvens.

The brands listed below are authorised tyre brands:

Avon	Fuldal	Motrio
B. F. Goodrich	General	Nexen
Barum	Gislaved	Nokian
Bridgestone	Goodyear	Norauto
Continental	Hankook	Pirelli
Debica	Kleber	Riken
Dunlop	Kormoran	Semperit
Eurotyre	Kumho	Toyo
Federal	Mabor	Uniroyal
Fedima	Marshal	Viking
Feuvert	Matador	Vredestein
Firestone	Maxxis	Yokohama
Flaken	Michelin	

If one or more tyres are not made by authorised brands Ayvens will debit, along with the reconditioning, a sum for each tyre, which will be equivalent to the average values at authorised brands. In addition, Ayvens does not accept any winter tyres, regardless of the brand.

For vehicles equipped with an anti-puncture kit, if the sealant has been used, let us remind you that this must be replaced before the vehicle is returned.

If you have contracted a tyre service from Ayvens and the sealant was used following a puncture on the vehicle in question, the replacement of this falls under the scope of the contract, so it should be refilled at a brand representative garage on the Ayvens network.
