In those circumstances, we will write to you explaining why we are unable to comply at that moment or, in the case of backup data, the request may be implemented at a later stage (when the backup is overwritten).

In your request, please make clear what Personal Data you would like to access or have changed or deleted, or otherwise let us know what limitations you would like to put on our use of your Personal Data.

For your protection, in principle we only implement requests with respect to the information associated with the particular e-mail address that you use to send us your request, and we may request additional information necessary to verify your identity before implementing your request.
